

2013-2014

Patio500™

61" / Nominal 17.5 oz. per square yard. Put up on approximately 50 yard rolls.

Patio 500 is vinyl laminated to a 100% polyester weft inserted warp knit scrim. It has very good UV, and mildew resistance along with exceptional dimensional stability, tensile and tear strength. Patio 500 is backed by a five year limited warranty (excludes pattern 513 Clear).

Patio 500 fabrics are heat sealable and accept many types of graphics, including heat sealed inset fabric, sewn in inset fabric, silk screening, hand painting, and appliqué. Pressure sensitive adhesive vinyl graphics are not recommended.

Flame resistance meets or exceeds the standards of California Fire Marshal, NFPA 701 TM2, and ASTM E-84, Class A.

Patio 500™ Limited Warranty

Patio 500™ Awning Fabrics are warranted for a period of five (5) years from date of original installation against rot or excessive deterioration, excessive loss of strength or color change if they occur in normal use and exposure, including sunlight and normal atmospheric chemicals. (Some color change is unavoidable due to ultraviolet rays and chemicals in the atmosphere.)

In the unlikely event of failure of fabric during the five (5) year period from date of original installation, we will supply you, the original owner or the provider of your protective fabric accessories with replacement fabric at no charge.

This warranty protects you against damage to the fabric accessories used under normal conditions. It does not cover damage to the fabric from acts of God, vandalism, neglect or improper use.

This warranty is in lieu of all warranties expressed or implied, and, Herculite Products Inc. will not be liable for any consequential or incidental damage. Any implied warranties imposed by law are limited in time to the duration of the expressed warranty.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

Patio 500®

Specifications

| | |
|------------------------|--|
| Description: | Vinyl laminated on a woven synthetic fabric. |
| Weight: | 17.5 oz. per lineal yard |
| Width: | 61 inches / 154.94 centimeters |
| Transparency: | Opaque (some light color shades do offer illumination) |
| Abrasion Resistance: | Excellent |
| Dimensional Stability: | Excellent |
| Flexibility: | Excellent in both hot and cold environments |
| Flame Resistance: | Meets California State Fire Marshall Title 19, NFPA-701-99 (Large Scale) ASTM E84-81A Flame Spread Rating Class A (15) |
| Mildew Resistance: | Excellent |
| Chemical Resistance: | Excellent |
| Water Repellency: | Excellent – Water Proof |
| Oil Resistance: | Excellent |
| Sewability: | Excellent |
| Heat Sealability: | Excellent. Can be sealed by hot air weg welder or radio frequency bar type. |

Care and Cleaning Awning Fabric

Patio 500® Awning Fabric is a polyester reinforced PVC fabric that will provide many years of satisfactory service. It is waterproof, flame, mildew, stain and dirt resistant. Patio 500® is dimensionally stable. Properly fastened to the frame, it will retain its trim fit as well as its protective function and aesthetic value. Since no material is impervious to all hazards, proper maintenance is important if maximum life of the product is to be realized. The following maintenance suggestions are offered:

1. Keep clean. Occasional hosing with clear water will prevent dirt accumulation. Most dirt accumulation can be removed by mild soap, water and a soft scrub brush. Rinse thoroughly. In extreme cases, most dirt can be removed by applying half strength bleach and brushing softly to cover thoroughly the necessary area. Allow solution to remain for two or three minutes, then thoroughly rinse with clear water, protecting surrounding materials or plant growth that might be damaged by the bleach.
2. In areas particularly conducive to mildew, brush away any visible accumulation of dirt on underside. Mildew can grow on dirt, but does not grow on or attack the Patio 500® vinyl.
3. Use care during installation, take down and transporting. Frictional heat, particularly at the folds, can damage the surface. Sufficient frictional heat can create holes.
4. Avoid excessive wind whip or flapping. Normally fastened sections or panels should be rolled or restrained when not in use.
